Hair Removal

Permanent Hair Reduction*

An innovative treatment for men and women that removes unwanted hair from almost anywhere on the body. Incorporating the latest IPL (intense pulsed light) technology, a flashlamp is guided via a glass prism to the hair. The pigments in the hair (melanin) absorb the light, converting it to heat and destroying the hair follicle making it unable to produce more hair, preventing future growth.

Price on consultation

Aftercare Products*

The effects of IPL treatments can be enhanced by combining the use of M-Activ products. Ask your beauty therapist for a personalised prescription.

Waxing

The most hygienic waxing system available, which uses disposable treatment heads to eliminate the risk of cross contamination associated with traditional waxing methods.

Clinics

These services are operated by independent providers. Full details available on request.

M-ACTIV Anti-Ageing Skincare*

M-ACTIV is the pioneering anti-ageing cosmeceutical skincare range, previously only available from dermatologists. Saks salons host M-ACTIV skincare clinics where the DermaScan (patented medical scanning technology) is used to examine the structure and condition of your skin, including the deepest layers. After your free in-depth skin analysis a professional skincare expert will write you a personal prescription according to your needs.

Injectables*

Delivered by medical practitioners who conduct all consultations and administer treatments.

Line Tamer

An effective treatment for frown lines, crow's feet and forehead lines and lasts between three to six months.

Lip Augmentation

Uses dermal fillers to enhance lips, add fullness and remove 'smokers' lines for the Bee Sting look.

Facial Contouring:

Smooths out lines and wrinkles using products including Collagen, Hylaform and Restylane.

Skin Resurfacing

Skin peels for sun damaged skin, acne and scar reduction, fine lines and dehydrated skin.
